## SUMMARY

Aamir is a Software Engineer in Cognizant Technology Solution Bangalore office. He has 5+ years of working experience as a Java Developer. His skills sets are Java 8,11,21, Spring Boot, Spring Security, Spring Batch, REST API, SQL, Microservices, Hibernate, Kafka, Jenkins, Docker, GCP.

## WORK EXPERIENCE:

Cognizant Technology Solution

January 2024 to Present

### CoreLogic

**Description:** This is a real estate domain project focused on delivering end-to-end business solutions. Our team is responsible for implementing client-specific requirements by developing and enhancing applications and services tailored to evolving business needs. In addition to new development, we provide robust support and maintenance for existing functionalities across multiple platforms, ensuring seamless operations and optimal performance.

#### Roles and Responsibilities:

- Participated actively in Agile development processes, including daily stand-ups, sprint planning, and retrospectives to ensure timely delivery and continuous improvement.
- Interpreted and analyzed business requirements provided by clients and Business Analysts to translate them into technical solutions.
- Microservices Development: Designed and developed RESTful microservices using Spring Boot, ensuring modularity, reusability, and high performance.
- Security Implementation: Integrated Spring Security to enforce authentication and authorization across services, including OAuth2 and JWT-based mechanisms.
- Collaborated with cross-functional teams across development, QA, and DevOps to design, implement, and validate scalable software applications.
- Batch Processing: Implemented Spring Batch jobs for scheduled data processing, including ETL operations and report generation.
- Unit & Integration Testing: Developed comprehensive JUnit and Mockito test cases to ensure code reliability and maintainability. Participated in integration testing with QA teams.
- Diagnosed and resolved application issues by implementing efficient solutions, writing JUnit test cases, and performing thorough testing to ensure stability and performance.

**Skills/Domain:** Java 8,11,21, Spring Boot, Spring Security, Spring Batch, SQL, Kafka, Jenkins, REST API, Microservices.

## WORK EXPERIENCE:

**Cognizant Technology Solution**

**October 2022 to December 2023**

### Centene HealthCare Plans & Services

**Description:** This is Health Care project, In which fetching Provider and Practitioner data from Centene data source then performing business logic after that generate report and share the report to business.

#### Roles and Responsibilities:

- Work within Agile development teams, attending daily stand-ups, sprint planning, and retrospectives.
- Analyze the requirement specification provided by the Client/Business Analyst.
- Collaborate with cross-functional teams to design, implement, and test software solutions.
- Debugging and implementing the efficient approach to fix the issue with the required JUnit test cases and test the application.

**Skills/Domain:** Java 8, Spring Boot, SQL, Kafka, Spring Batch, Jenkins.

**TATA Consultancy Service (TCS)**

**March 2020 to October 2022**

### IBM Watson Health – Advantage Suite Reporting

**Description:** Advantage Suite Reporting project provides data analytic solution for data analyst and data scientist to gain insights on health plan and cost variation.

#### Roles and Responsibilities:

- Analyze the requirement specification provided by the Client/Business Analyst.
- Brainstorming on product issues, feature enhancements, design discussions
- Debugging and implementing the efficient approach to fix the issue with the required JUnit test cases and test the application.
- Run HCL AppScan on product release.

**Skills/Domain:** Java 8, Spring, Spring Boot, Hibernate, REST API, JUnit, Oracle, Maven, Jenkins, IBM Cognos 11, IBM Deployment Manager.

## EDUCATION:

Bachelor of Technology, Computer Science & Engineering (CSE): Asansol Engineering College (Asansol), Maulana Abul Kalam Azad University of Technology, West Bengal, 2018.

## ADDITIONAL DETAILS:

### Certification/Trainings

Tata Consultancy & Services	January 2020 to March 2020
